Alternative medicine, fringe medicine, pseudomedicine or simply questionable medicine is the use and promotion of practices which are unproven, disproven, impossible to prove, or excessively harmful in relation to their effect â€™ in the attempt to achieve the healing effects of medicine. They differ from experimental medicine in that the latter employs responsible investigation, and accepts ...

The Holistic Intuition Society helps people to use the power of the mind to seek the truth and do good. Some use devices to enhance their abilities, as in healing, divining, dowsing, and radiesthesia. We seek to correlate the laws of science with philosophies and metaphysical deductions, and to understand and develop the sensing abilities of individuals.

Health, as defined by the World Health Organization (WHO), is "a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity." This definition has been subject to controversy, as it may have limited value for implementation. Health may be defined as the ability to adapt and manage physical, mental and social challenges throughout life.
