Overview. Tukey defined data analysis in 1961 as: " Procedures for analyzing data, techniques for interpreting the results of such procedures, ways of planning the gathering of data to make its analysis easier, more precise or more accurate, and all the machinery and results of (mathematical) statistics which apply to analyzing data."

7 October 2013 | By Estelle Metayer. Analysis is often where the ball drops as far as competitive intelligence analysts are concerned. Yet this is the only way the team can truly extract insights from the data and the intelligence gathered, and have a chance to play a role in the company's strategic planning process.
