\*Note: A provider that reports deployment of a particular technology and bandwidth in a census block may not necessarily offer that service everywhere in the block. Accordingly, a list of providers deployed in a census block does not necessarily reflect the number of choices available to any particular household or business location in that block, and the number of such providers in the census ...

Deployment of Internet Protocol Version 6 (), the next generation of the Internet Protocol, has been in progress since the mid-2000s.. IPv6 was designed as a replacement for IPv4 which has been in use since 1982, and is in the final stages of exhausting its unallocated address space, but still carries most Internet traffic. Google's statistics show IPv6 availability of its users up to 25% ...
