The Great Depression was a severe worldwide economic depression that took place mostly during the 1930s, beginning in the United States. The timing of the Great Depression varied across nations; in most countries it started in 1929 and lasted until the late-1930s. It was the longest, deepest, and most widespread depression of the 20th century. In the 21st century, the Great Depression is ...

Major depressive disorder (MDD), also known simply as depression, is a mental disorder characterized by at least two weeks of low mood that is present across most situations. It is often accompanied by low self-esteem, loss of interest in normally enjoyable activities, low energy, and pain without a clear cause. People may also occasionally have false beliefs or see or hear things that others ...

When you get a diagnosis of depression, the first line treatment is often antidepressant medications. Unfortunately, initial treatment with antidepressants fails to resolve depression approximately two-thirds of the time. Once that treatment fails, doctors turn to other strategies"often including switching medications, or adding on additional medications, often antipsychotics.
