While these four products are branded as CMS I don't think they are really comparable. Drupal and, for what I know, Joomla are web publishing CMS (or WCMS), they are designed to create web sites and manage their content. They are not designed as generic CMS, DMS or ECM. Alfresco, and probably Magnolia, are ECM/DMS designed to manage enterprise contents. ...

CMS - Alfresco, Magnolia, Drupal and Joomla Comparison

A web content management system (WCMS) is a software content management system (CMS) specifically for web content. It provides website authoring, collaboration, and administration tools that help users with little knowledge of web programming languages or markup languages create and manage website content. A WCMS provides the foundation for collaboration, providing users the ability to manage ...
