The duck test is a form of abductive reasoning. This is its usual expression: If it looks like a duck, swims like a duck, and quacks like a duck, then it probably is a duck.. The test implies that a person can identify an unknown subject by observing that subject's habitual characteristics.

Duck test - Wikipedia

Duck is the common name for a large number of species in the waterfowl family Anatidae which also includes swans and geese. Ducks are divided among several subfamilies in the family Anatidae; they do not represent a monophyletic group (the group of all descendants of a single common ancestral species) but a form taxon, since swans and geese are not considered ducks.
