representation of an ideal friendly group will be constituted of the following elements: equality, friendship, common opinion, the first two elements being part of the core: they are necessary to the recognition of the object (Moliner 1993, 1994). The assumption that a representation is constituted of a set of elements comes

Saadi Lahlou and Jean-Claude Abrie What are the "elements

representation of an element of the group. In unpublished notes Conway has investigated this approach further. Now in Curtis (1993) J 1 emerges as a classic example of the author's symmetric presentation project described in Curtis (1990), and the suggestion to

Symmetric Representation of the Elements of the Janko Group

Representation theory was born in 1896 in the work of the German mathematician F. G. Frobenius. This work was triggered by a letter to Frobenius by R. Dedekind.

Introduction to representation theory

The final chapter of the book presents the basic elements of representation theory, especially finite-dimensional representations of finite groups.

Elements of Representation Theory | SpringerLink

representation of elements within Modern form of periodic table, also referred as "long form of periodic table". Energy of the electron increases with $(n+l)$, where n , l are principal and azimuthal quantum number.

An Alternate Graphical Representation of Periodic table of

" Representations of law in the abstract, unless made dishonestly or without reasonable basis. However, if representation really deals with application of law to particular facts so that it is a statement about the effect of the law in a particular situation, it can be actionable as misrepresentation " see e.g. Pankhania v.

English Law of Contract: Misrepresentation

Chapter 12 Matrix Representations of State Vectors and Operators 150 object "suspended" in space, much as a pencil held in the air with a steady position and orientation has a fixed length and orientation. One end of the pencil, say where the eraser is, can be taken to be the origin O, and the other end (the sharp end) the position of a ...
